MON-7HD IP Camera & HD CCTV Camera Test Monitor
with *7" LCD Touchscreen* and **up to 15 hours of battery life**

The MON-7HD is an HD CCTV and IP camera test monitor with a 7 inch LCD touch screen. This video tester is capable of displaying video from IP cameras HD CCTV cameras (HD-TVI, HD-CVI, AHD, HD-SDI), and analog CCTV cameras. The 7" LCD monitor supports 1024 x 600 resolution. This is the ultimate testing tool for installers that work with various types of security cameras.

Users can connect to IP cameras using the built-in LAN port or the built-in WiFi for a wireless connection. The monitor can power the IP camera via the POE Ethernet port (24 Watt Maximum). This monitor is also capable of powering Analog CCTV and HD security cameras (AHD, HD-TVI, HD-CVI) via the 12V-DC 2 Amp power output.

With a fully charged battery (7 hour charge time), the monitor can last up to 15 hours with normal use. An HDMI video output support 1920 x 1080 resolution. The MON-7HD also has the following features: IP address scanner, port finder and link test. All of this comes neatly packaged in a padded carrying case for ease of storage and portability.
