Introduction

The Target Mini Fixed Rugged Dome is an outdoor, fixed, mini-sized network camera equipped with an automatic IR-cut filter and IR LEDs for day and night surveillance. The camera adheres to IK10 and IP67 standards. The camera comes with a built-in micro SD card slot for local storage. It is adjustable in 2 axes (pan and tilt) and can be connected through PoE. The camera can support H.265 video codec to achieve better compression ratio while maintaining high quality pictures at reduced network bandwidths. The camera is capable of providing a color live view not only in near darkness, but also under contrasting light intensities with its super low lux CMOS image sensor and WDR Pro.
