

# Linksys Router Port Forwarding Setup For iDVR-PRO

1. log into your Linksys router <http://192.168.1.1> (By default the User name and password are both **admin**)
2. Once you are logged into your Linksys router click “Applications and Gaming” > Single Port Forwarding ( If single port forwarding is not an option than select port range forwarding)

Application Name	Externet Port	Internet Port	Protocol	To IP Address	Enabled
	---	---	---	192.168.1.0	<input type="checkbox"/>

Now You will need to fill in the blanks for Rule 1

**Application Name:** iDVR-PRO 1

**External Port:**8080

**Internal Port :**8080

**Protocol:** Both

**To IP Address :** IP Address of your iDVR-PRO

**Check the Enable Box**

Now we are going to create a separate Rule

**Application Name:** iDVR-PRO 2

**External Port:**554

**Internal Port :**554

**Protocol:** Both

**To IP Address :** IP Address of your iDVR-PRO

**Check the Enable Box**

3. When you're finished, click **Save Settings** near the bottom of the screen to save your changes.
