

## MON-IP7 IP Camera Test Monitor

*with 7" LCD Touchscreen and up to 10 hours of battery life*

The MON-IP7 is an IP test monitor that is compatible with both IP and Analog cameras. It features a 7" LCD touchscreen with a display resolution of 1920 x 1200, making it easy to navigate through the menus. The MON-IP7 supports more than 40 brands of IP cameras including HikVision, Samsung and Dahua.

Users can connect to IP cameras using the built-in LAN port or the built-in WiFi for a wireless connection. When using the LAN port, the monitor can power the IP camera via POE (24 Watt Maximum). This monitor is also capable of powering Analog / CCTV via the 12V-DC 2 Amp power output.

With a fully charged battery (6-hour charge time), the monitor can last up to 10 hours with normal use. An HDMI video output supports 1920 x 1080 resolution. The MON-IP7 has a few more features including an IP address scanner, port finder and link test. All of this comes neatly packaged in a padded carrying case for ease of storage and portability.
