

AHD-PIR4 Motion Detector Security Camera

with covert casing, invisible infrared LEDs and 720P resolution

The AHD-PIR4 is a motion detector security camera that is capable of recording in 720P HD resolution. The infrared LEDs of this camera do not emit a red glow and are completely invisible to the human eye.

This camera features a covert PIR motion sensor housing that makes the pinhole lens undetectable. Features such as white balance, sens-up and brightness can be adjusted on the OSD menu using the built-in joystick.
