

## AMP-101HD AHD HD-TVI HDCVI Video Amplifier

The AMP-101HD is a single channel AHD HD-TVI HDCVI video amplifier that can transmit and amplify an AHD, or HDCVI BNC video signal up to 800 meters and an HD-TVI signal up to 600 meters. This is an ideal device for applications that require a longer cable run that cannot be supported without amplification. A 12V-DC power supply is included. Up to 3 units can be powered off the same power adapter using the included power jumper cables.
