

BNC-22 BNC Surveillance Monitor

22-inch LED 1080p HD monitor with BNC Inputs that support AHD, HD-TVI, HDCVI, and CVBS / Analog security cameras.

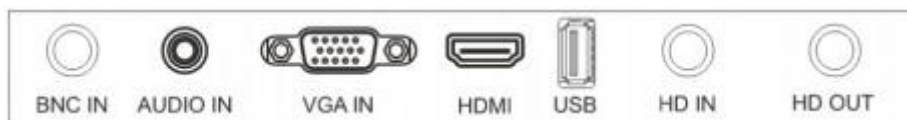

The BNC-22 is a 22-inch LED video surveillance monitor with a BNC input connector to natively support Analog CCTV (CVBS), HD-TVI, HDCVI, and AHD security cameras. These BNC monitors also have a looping BNC output that can be used to run the camera's video to a second device, such as a video surveillance DVR.

A desk stand is included, and the monitor is also compatible with VESA 100 wall mounts. These surveillance monitors support an input of up 1920 x 1080 (1080p) resolution. For global support, the BNC-22 supports both the NTSC and PAL video resolution. The BNC inputs on the monitor detect the type of video standard being used and automatically switches to support it.
