

VDS-104HD HD CCTV Video Distribution Box

The VDS-104HD is four channel HD CCTV video distribution box that takes a single HD-TVI, AHD, or HDCVI BNC video input and distributes it to 4 BNC outputs. This is an excellent device for surveillance video applications that require a security camera to be connected to multiple monitors or DVRs. The Video + Data (Up the Coax) option on the VD-104HD allows a DVR connected to the output of the splitter to send a signal back to the camera connected to the input. This allows the DVR to control such things as the OSD (On Screen Display) of the camera through the switch. A camera or DVR can be used as the video input. A 12V-DC power supply is included.

Features

Video Input Channel	BNC x 1, 75 Ohm, 1 Vpp
Video Output Channel	BNC x 4, 75 Ohm, 1 Vpp
Video Bandwidth	100 Mhz 0.1 dB Gain Flatness
Power Supply	12V-DC 500 mA
Power Consumption	110 mA (Max)
Temperature	Operation: 0 ~ 55°C, Storage: -20 ~ 85°C, Humidity: Up to 95%
Dimensions	138 x 85.6 x 29.5 mm / 5.43 x 3.37 x 1.16 inches
Weight	140 grams
