

VDS-1632HD AHD HD-TVI HDCVI Video Distributor

The VDS-1632HD is 32 channel AHD HD-TVI HDCVI video distributor that takes up to 16 HD-TVI, AHD, or HDCVI BNC video inputs and distributes it to 32 BNC outputs. This is an excellent device for surveillance video applications that require a security camera to be connected to multiple monitors, video processors, or DVRs. Either multiple cameras, DVRs, or HD video multiplexers can be used as the video inputs. A 12V-DC power supply is included.

Features

Video Input Channel	BNC x 16, 75 Ohm, 1 Vpp
Video Output Channel	BNC x 32, 75 Ohm, 1 Vpp
Video Bandwidth	100 Mhz 0.1 dB Gain
Power Supply	12V-DC 1 Amp
Power Consumption	700 mA
Temperature	Operation: 0 ~ 55°C, Storage: -20 ~ 85°C, Humidity: Up to 95%
Dimensions	483 x 105.5 x 44 mm / 19.01 x 4.15 x 1.73 inches
Weight	2050 grams
LED Indication	1 Power LED (Green), 16 Signal LED (Blue)
